### Mccann Worldgroup

Salt Lake City, UT

August 7, 2009 – Present

*Position: Contract Motion Graphics Developer*

Responsibilities: Create Flash animated web ad banners from storyboards for top-tier companies such as VeriSign, Verizon Wireless, and Dymo. Update existing banners for localization in other regions. Use Actionscript 3.0 to build video players and slideshows for existing web sites.

### DIGOP – American Healthways

American Fork, UT

February 11, 2008 – April 30, 2009

*Position: Web Developer*

Responsibilities: Create and update custom and express websites for banks. Dot net, Javascript, .asp includes, and CMS were regularly utilized in site builds. Graphic design and flash work were both frequently needed.

### UOL/Mysite.com

Orem, UT

November 6, 2007 – February 8, 2008

*Position: Contract Front End Developer*

Responsibilities: Aid the development team in the creation of all the visual elements and content for template websites.

### Origin 3, LLC

Salt Lake City, UT

December 2006 – September 24, 2007

*Position: Website Designer*

Responsibilities: Build websites from start to finish using all current industry standards and practices. Methods involve designing the basic layout in Adobe Photoshop, using Flash for any animation. DHTML/AJAX was used frequently in making components and drop down menus.

### Heritage Web Solutions

Provo, UT

November 2005 – November 2006

*Position: Flash Developer*

Responsibilities: Design and animate Flash banners, Flash intros, dynamic slideshows, and full Flash websites. Update all flash work for all assigned accounts and keep excellent relations with all customers.
